

CSCI374-001 Mobile Application Design Principles Paper

Assignment: Mobile Application Design Principles Summary

Write a 1-2-page paper summarizing, in your own words, the various design principles that should be considered when developing a mobile application. You may reference any of the resources listed on my web page or use additional applicable resources related to mobile application design.

Format your paper according to IEEE standards and include a reference page. Please also use Times New Roman, Arial or Calibri font with a maximum font size of 12pt.
