

## **CSCI374-001 Final Group Project – Part #4:**

Your group needs to meet with me for an hour during the week of April 1<sup>st</sup> - 5<sup>th</sup>. A timeslot sign-up sheet will be available in-class on March 26<sup>th</sup> and then outside of my office until **March 29<sup>th</sup>**. **ALL** group members need to be in attendance for this meeting.

During this meeting, you will need to present the current state of the app highlighting what is implemented/working, what is in progress/needs debugged and what still needs to be implemented. Please bring either a laptop OR your tablet so that your group can demonstrate the progress you have made on your group mobile application (**2 points**). Also, please have your group project uploaded to your group folder on [\\filestore.cs.edinboro.edu\CSCI374\201820\](https://filestore.cs.edinboro.edu/CSCI374/201820/) (**2 points**).

You will also need to bring a PRINTED COPY of your updated features list (Part #2) AND your updated wireframe diagram (Part #3). You should update the status field of the features list - you may also need to update the priority level and ease of implementation fields, too. Please also add the duration (you think) that each of the remaining features will take to implement. You should also update the wireframe document to reflect which of the views are complete.

You will need to formulate a plan that helps ensure that your group will have a working mobile application for your final presentation on May 8<sup>th</sup>. After reviewing the expected duration of each of your remaining features, please provide a weekly breakdown of when your group plans to have each feature implemented. Please bring a PRINTED COPY of the plan with you to your group meeting. **After our meeting, please upload a FINALIZED plan to the drop box on D2L by Friday April 5<sup>th</sup> at 9:00PM.**

**Example:** List features with time allotted for implementation of the feature for each week (indicate when feature is complete by changing the font of the feature to **GREEN**)

**April 1-5:** Database (10 hours), **Main Menu** (2 hours)

**April 8-12:** **Add Menu** (3 hours), **Databse** (5 hours)

**April 15-19:** **Delete Menu** (3 hours), **Edit Menu** (3 hours)

**April 22-26:** **Statistics** (6 hours)

	<b>6pts</b>	<b>4pts</b>	<b>2pts</b>	<b>0pts</b>
<b>Group Presence</b>	All members present for group meeting	Most members present for group meeting	Only one member present for group meeting	No meeting scheduled
<b>Features List</b>	Document was printed and updated	Document was updated but not printed	Document was printed but not updated	No document brought to the meeting
<b>Wireframe</b>	Document was printed and updated	Document was updated but not printed	Document was printed but not updated	No document brought to the meeting
